More on... this

Targeting the satanic underground, breaking through the physical, mental, and spiritual barriers is vitally needed. How do you do this andwhy would you want to? (the victims of SRA, and how they summon and send dark powers to influence/shape governments, military, the wealth elite, the tech giants and the 'satanization of society'.

Like in Ezekiel ch 8 note: The great prophet did not know about or where the underground 'luciferians' of that day were meeting. It could be there was 'talk' about it but it was God alone who knew about the who, where, why, and how to find these ritual workers of that day. What was done deep down in the hidden underground was not only real but.....they were the dark, violent, bloody abominations.

This chapter in Ezekiel selected and recorded for us to study is an incredibly detailed exposure of what would now be called 'satanic ritual abuse or the real -luciferians, with blood rituals and covens. The very things they did then are the very things done for generations and are the blood rituals that are going on globally.

There are four main things to know (we need to know) about this global

network of current day 'luciferians' as they practice the same abominations today. They are the very ones behind the global chaos of today and the coming end of days destruction to come. They are the 'mystery of iniquity' or shadow system (eyes wide shut) the world whispers about.

Here are the 4 points I will talk about on the live Ragged Edge Radio today.

1. **They are really there** (as in Ezekiel's day) and growing as part of the end of days prophecy on the rise of 'Babylon', the new beast-world order and the rise of the satanic 'armies' of the antichrist (Revelation 19:19). It is simply how that vast global underground gets the demonic satanic powers to this side. It is how satan uses these blood ritual doorways he creates to get his dark agenda accomplished. It will not be done by 'human hands' (Daniel) but by real conjured vast demonic powers (Revelation 12-13).

2. They currently 'hide' themselves by layers of **physical protection**. Like criminals (organized crime-drug lords etc.) they must secure their evil practices by shielding themselves and their deadly works. What they do are extremely high crimes, and they are radically evil. Their members and victims are controlled by fear, intimidation, mind control, death threats and the demons summoned ...and operative. They meet in these chosen secured hidden underground places, High places in the deep woods (like Bohemian grove), in the old castles and other locations that would keep them securely hidden. Armed guards, technology, and layers of security to keep the rest of us away from.

3. They use the '**mental**' the **doubling process** that helps them secure their evil practices. By plotted disinformation, confusion and what the nazis called 'doubling' they are right here in front of us but 'masqueraded'. They by design live 'normal' public lives to be seen by all and seek to be seen as the good folks of 'normal' society. They are the radical evil persons of the underground but by day they seek to be shown as societies best. In Ezekiel's day the blood and guts 'satanists' in the underground were found.... they were the public leaders and 'normal' folks of society. They are like public cotton candy wrapped around razorblades.

4. And I believe that this layer of secrecy is the most sought and powerful level of keeping themselves totally hidden... dark powers, yes demons! They live in dark supernaturalism and the demons they serve and summon

are used to cover them. There is a demonic-supernatural covering over all satanic-luciferic covens and this global network for now. They even have rituals that summons demons to be used... to blind-deter and shield their locations-activities and identities. This demonic shielding is there most powerful aspect and only the presence, power and work of God can tear it down.

See EXPELLING DARKNESS on applications of praying to break into this vast underworld of evil.

Also, a particularly good book to study:
